### PROFILE

Salesforce Developer with 1+ year of experience at Ashore Systems, specializing in developing and customizing Salesforce applications. Proficient in Apex, Lightning Web Components (LWC), Flows, and REST API integrations. Skilled in automating business processes and building scalable CRM solutions.

### WORK EXPERIENCE

JR. SOFTWARE DEVELOPER	AUG 2025 - PRESENT
Ashore Systems Pvt. Ltd.	
JR. SOFTWARE INTERN	DEC-2024 - AUG 2025
Ashore Systems Pvt. Ltd.	

### PROJECTS

- **Real Estate CRM Application (Salesforce platform)**

**Role:** Salesforce Developer

**Project Overview:**

Developed a custom Real Estate CRM application to streamline property management, client communication, and agent collaboration, enhancing overall operational efficiency.

- **LWC Account Management**

Built a Salesforce custom tab for account management and contact management features, including add, edit, delete functionalities.

**Project Overview:**

Developed a custom Salesforce tab using Lightning Web Components (LWC) for Account and Contact management with add, edit, and delete features. Integrated Apex for backend operations and optimized user experience with search and filter functionalities.

- **Handwritten Digit Recognition System Using CNN**

Handwritten Digit Recognition is the process of digitizing human handwritten digit images. It is a difficult task for the machine because handwritten digits are not perfect and can be made with a variety of flavors. In order to address this issue, we created HDR, which uses the image of a digit to identify the digit that is present in the image.
